When called to an accident scene, Dunne's Towing will dispatch the equipment that is requested, along with any additional equipment that is deemed necessary by our personnel to perform the recovery in the safest and fastest manner to reduce the liability of additional accidents, damage, and injury. If the equipment dispatched arrives on scene and is not needed, it may still be billed for. If equipment is larger than required it will still be billed at full rate.

Any damaged or contaminated equipment will be charged to the job.

Rates are for normal business hours, services provided after hours and/or holidays will be charged at 150% of normal rate.

A 50% surcharge will be added to towing / recovery portion bill for inclement weather. Inclement weather will be considered as follows: Rain, lightening, snow, sustained winds of 20 mph or greater, heat index above 90 degrees Fahrenheit or wind chill below 35 degrees Fahrenheit.

A 50% surcharge will be added to the entire towing / recovery portion of bill if our equipment and/or operators are placed in a hazardous situation. Examples, but not limited to: downed wires, broken utility poles, bio-hazards, etc.

The following surcharges will be added to accidents involving the following hazardous materials:

- 50% Flammable high flash point
- 100% Flammable low flash point
- 200% Class B Explosives or Chemical
- 300% Class A Explosives or Chemical
- 500% Nuclear

Rigging equipment used on these jobs will be billed at cost plus 25%, incidents involving these types of hazardous materials can cause damage to chains, straps, etc., that will not be noticed immediately however these damages can pose a safety risk later. Therefore the equipment will be billed and destroyed

Any sublet equipment / services will be charged at cost plus 25%.

Non-Personal items and/or cargo WILL NOT be released until all towing / recovery charges are paid.

Nothing will be removed from a vehicle without registered owners consent.

Time starts when call is received and continues until the last piece equipment is available. If the operator of truck is committed to a job for a load transfer, clean-up, etc., this makes the truck committed to the job as well and will be billed at full rate.

Weight of vehicle is based upon the weight at the time of accident, not time of recovery.

Lower rates may be charged at the discretion of Dunne's Towing's management.

If an extended hold is placed on a vehicle for any reason, a reduced storage rate will be offered after current towing, recovery, and storage charges are settled.

Recoveries involving casualties in excess of 80,000 pound GVW are subject to an additional \$0.10 per every pound over 80,000 added to the hourly rate of each piece of equipment on scene.
